Mister,

First, my appologyse for may english but it's not my usual langage. Usually, I speak french.

I am currently performing scientific research for the Royal Military Museum in Brussels ([www.klm-mra.be](http://www.klm-mra.be)) and especially for the Aviation section I am now looking into the history of the "Air Rescue Squadron" during the Korean War and the Second World War.

While browsing the internet, I happened on your site, which is particularly interesting. It indeed carries a lot of information.

I feel that the history of this squadrons are insufficiently known in Europe and I would like to remedy this by writing an article on the subject. In fact, I think make a artical over the history of the 3 ARS in Korean War

Could you help me in any way? have you any contact with old members of this squadrons, Could you let me know if you are in possession of original documents which do not appear on your site? Would you be willing to send me a copy of these? Also, could you send me some high definition pictures (300 dpi) to illustrate my article?

It's a lot of question but it is important for make a good job.

I already thank you for your attention and really hope to hear from you soon.

Yours sincerely,
